Talon Cyber Tec LLC is a company under the Talon Companies banner that focuses on safeguarding information assets and responding to security incidents. Talon Cyber Tec employs a cross-disciplinary team that is comprised of information security experts and computer forensic investigators, as well as attorneys, law enforcement specialists, and seasoned business professionals.

Recognizing that information assets are critical to organizations in today's world, Talon Cyber Tec provides a comprehensive suite of proactive and reactive security services and a consultative approach to identify risks and neutralize threats to protect electronic information and the technology infrastructures responsible for its creation, storage, and transmission.

The University of Southern California Viterbi School of Engineering and Talon Cyber Tec LLC, have formed a partnership to provide cyber seminars, training and special projects for government and private sector clients.

The partnership with Talon Cyber Tec LLC will provide the USC Viterbi School of Engineering Cyber Security Team with practical cyber security applications based on Talon's experience in government and the private sector. Talon Cyber Tec LLC will have access to cutting edge technologies and academic resources from USC.

Talon Cyber Tec, LLC was founded by Ron Williams and Todd Stefan to protect trade secrets and proprietary data and to respond to Cyber attacks.

Talon Cyber Tec's proven approach to proactive and reactive information security encompasses the following services for public and private organizations and government entities:

- INFORMATION SECURITY ASSESSMENTS
- SECURITY REGULATION COMPLIANCE
- PENETRATION TESTING
- COMPUTER FORENSICS & ELECTRONIC DISCOVERY
- INCIDENT RESPONSE & DISASTER RECOVERY
- CYBER SURVEILLANCE
- TECHNICAL SURVEILLANCE COUNTERMEASURES
