

Talon Cyber Tec, LLC

FOCUSING ON PROTECTING
PRIVATE INFORMATION AND INTELLECTUAL PROPERTY

REPUTABLE

KNOWLEDGEABLE

TRUSTWORTHY

Talon Cyber Tec LLC (TCT) is one of the Talon Companies specializing in Cyber Security and Privacy. We incorporate physical security with governance and compliance – bringing a complete, 360-degree approach that allows TCT to serve you in a more holistic level than other companies. Our cyber, privacy and physical security experts are seasoned professionals with real world experience from the Department of Defense (DoD), Intelligence Community, US Military, U.S. Secret Service (USSS), the Federal Bureau of Investigation (FBI) and Private Industry.

Talon Cyber Tec LLC recognizes the threat to your personal private information (PPI), intellectual property (IP), and trade secrets. By using our convergence triad formula of cyber security, physical security with governance and compliance, TCT provides a comprehensive approach to identify risks and vulnerabilities to neutralize threats while protecting your company with an integrated compliance program.

Talon Cyber Tec LLC's unique proprietary blend of cyber security, physical security, governance and compliance provides for the proper execution of privacy and data protection requiring the merging of law with rapidly developing new security technologies.

TCT has partnered with cyber law attorneys to address the ever-changing landscape of cyber regulations that govern compliance like the California Consumer Protection Act (CCPA) and the General Data Protection Regulation (GDPR).

Talon Cyber Tec LLC evaluates, tests and implements the latest cyber security technologies to provide clients with cutting edge tiered and layered security. Our experts have experience in implementing Artificial Intelligence (AI), and encryption to protect data residing on site, in a cloud environment or during electronic transfer.

Our experts who formerly worked for government agencies have experience in detecting cyber-attacks and intrusions, discovering vulnerabilities and deterring disruptive threats, developing internal controls, and preparing compliance programs that will maximize your company's operations.

All businesses and government agencies must have a seamless security plan that converges cyber security with physical security and a comprehensive compliance program. TCT combines the three disciplines: to protect valuable data, people, and other valuable assets.
